

# QPro Alpine range

(Act 36 of 1947)

## Product description

The QPro Alpine range consists of formulated rations that meet the requirements of today's layers to perform optimally in terms of egg production. The rations are formulated with high-quality grains that provide the hen with quality protein and energy at the ideal ratios and quantities in order to satisfy her own as well as her egg production requirements. These rations contain the necessary vitamins and trace minerals for optimal body function and production. This product also contains growth promoters that support optimal production.

## Intake

Hen feed intake is influenced by environmental factors, housing, the health status of the hen, water availability and population density. Suggested intake under ideal conditions:

Alpine Pre-peak V25519	Alpine 20 V25520	Alpine 40 V25521	Alpine 60 V25522
Point of lay to 22 weeks	20 weeks to 40 weeks	40 weeks to 60 weeks	From 60 weeks to cull
90-100 g/day	100 g/day	110 g/day	120 g/day
