

QPro Dry Sow and Boar Mash

V21651 (Act 36 of 1947)

Product description

QPro Dry Sow and Boar Mash is a balanced ration for the non-lactating sow. The ration is also used for boars to maintain condition. The product has a balanced protein to energy ratio to fulfil the requirements of the animals. The product also contains a balanced amount of vitamins, minerals and trace elements.

Feed recommendation

Feed to pregnant, non-lactating sows at 2-2,5 kg/sow/day divided into two or more feedings per day. In cold conditions the animals have a higher energy requirement and intakes can be adjusted to 3 kg/sow/day. Ensure that fresh water is always freely available.

Feed the non-working boar 1-1,8 kg/boar/day and feed ad lib to the working boar during mating season.
