

# QPro Lactating Sow Mash

V21660 (Act 36 of 1947)

## Product description

QPro Lactating Sow Mash is a high-quality ration formulated for the optimal feeding of lactating sows with average to above average litter sizes. Correct feeding during this phase of production is critically important because good nutrition in this period influences the production/performance potential of both the sow and the litter. The product has a balanced protein to energy ratio to fulfil the requirements of the animals. The product also contains a balanced amount of vitamins, minerals and trace elements.

## Feed recommendation

Feed ad lib to lactating sows with average to above average litter sizes. Limit intakes of sows with small litters to 3 kg + 350 gram per suckling pig in the litter. Ensure that fresh water is always freely available.
