

QPro Pig Grower

V21651 (Act 36 of 1947)

Product description

QPro Pig Grower is fed after the weaner meal has been withdrawn from 56 days old. This product is formulated to provide in the nutrient requirements of the young, growing pig during this physiological phase in terms of quality protein and enough energy for optimal growth. The product also contains a balanced amount of vitamins, minerals and trace elements.

Feed recommendation

It is important to gradually accustom or adjust pigs with any change from one feed to another. This prevents feed stress or refusal of feed and thus prevents growth loss. Growing pigs are very sensitive to dietary changes, therefore the client has to be patient and strict in this regard.

Feed pigs at 3-3,5% of body mass. Ensure that clean water is always available. Feed up to marketing weight (60-70 kg).
