

# QPro Vetbees 14

(V21656) (Act 36 of 1947)

## Product description

QPro Vetbees 14 is a balanced semi-complete ration formulated for the finishing of cattle. This product can be used where the client produces and wants to use his own roughage. It has a good protein to energy balance and contains the necessary vitamins and trace minerals as well as growth promoters to achieve optimal growth.

## Feed recommendation

Cattle can be fed 2-3 kg/animal/day on day 1. Thereafter intake can be increased with 500-1000 g/animal/day until animals are consuming feed ad lib. Ensure that roughage or bales are freely available during the adaptation period. Roughage always have to be available together with QPro Cattle Fattening 14. Make sure that there is enough feeding space and keep feeding troughs full. Ensure that clean drinking water is always available.
